

Basic Information

Product Name	AffiniPure Goat Anti-Rabbit IgG (H+L)
Catalog Number	BA1039
Isotype	IgG
Immunogen	Rabbit IgG (whole molecular)
Host	Goat
Purity	The antibody was purified from antisera by immunoaffinitychromatography.
Format	Lyophilized
Concentration	0.5-1 mg/ml, actual concentration vary by lot. Use suggested dilution ratio to decide dilution procedure.
specificity	This antibody is specific for rabbit IgG and shows no cross reactivity has weak cross reactivity with human IgG and show no cross reactivity with mouse/bovine IgG.
Tested Application	WB, IHC, IF, ICC, ELISA
Method of use	Reagent dilution: the specific concentration is determined by the user 0.01M PBS buffer (pH 7.0-7.6), or 1% sodium acetate can be diluted.After dilution, it cannot be stored for a long time.After adding preservatives (such as 0.05%NaN ₃) and reagent grade BSA to 1%, the antibody can be preserved for a long time.When labeling antibodies, such as HRP, FITC, Biotin, etc., the reagents should not contain BSA and NaN ₃ .
Storage	At -20°C for 1 years from the date of receipt. Avoid repeated freezing and thawing.
